
Nock TFE 350 Skinning Machine

Application: Freeze drum technology to thin (shallow) skin and deep skin all types of fish fillets. Outstanding results when skinning soft (eg: thawed) fish fillets and for species with weak skin.

Technical data:

- Cutting width: 350 mm
- Cutting speed: 22 m/min
- Cutting Depth: 0 - 10 mm
- Overall Dimensions mm: 1500 x 1500 x 2600 mm
- Weight: 580 kg
- Throughout Height: 45 mm
- Electrical Performance (Max): 4.8 kw
- Electrical connections: 3 AC - 400V - 50 (60) hz
